-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Receipt of Amendment E filed March 03, 2005 is acknowledged. Claim 1 remains pending in the application and is present to be examined upon its merits.

Double Patenting

2. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

3. Claim 1 is provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 22 of copending Application No. 09/449,942. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Walker (US 5,794,207).

A method for bidding by vendors of customized goods or services (see col. 10, ll. 31+), comprising steps of:

Art Unit: 3624

receiving a plurality of vendor records each of said vendor records having vendor identifier data representing a vendor, and vendor capability data identifying a plurality of capabilities for said vendor to provide a customized good or service for each of a plurality of vendors in a pool of vendors (see *seller database and CPO database*, col. 13, ll. 11-29);

receiving a job data (CPO) from a buyer, said job data having a buyer identifier data, and a job descriptor data which specifies a plurality of characteristics of said customized good or service for which said buyer wishes a price quote or bid (see col. 8, ll. 42-56);

automatically comparing via a computer processor said vendor records to said job data. wherein said comparing includes comparing each of said plurality of characteristics for said customized good or service with corresponding plural capabilities for each vendor (see col. 16, ll. 12-45);

automatically identifying via a computer processor at least one subset from the pool of vendors as qualified for receiving an invitation for bid, based on said comparison (see col. 18, ll. 15-33); selectively transmitting a solicitation to only selected members from the pool of vendors (see col. 18, ll. 15-33); receiving bid response data from at least one of said vendors which received said solicitation, said bid response data identifying each of the vendors from which it was received and a bid price (see col. 18, ll. 15-33); and outputting to said buyer said bid response data (see col. 18, ll. 15-33).
